

HIGHLIGHTS

- 24 gauge galvanized steel frame
- 1 x 1 wire on air exit side
- Available in 16 gauge galvanized, aluminum, and stainless

CONSTRUCTION The S-76 Pad holding frame is constructed with a rigid 24 gauge galvanized steel frame with 1 x 1 wire on air exit side. This pad holding frame is designed to hold a variety of filtering materials. The 1 x 1 wire are folded securely inside of the frame to give the backing extra strength to hold the pad in place. Available in both standard and special sizes. Available in 3", 4", and 6" thicknesses. 16 gauge galvanized steel for 2" only, aluminum, and stainless frames are available. Aluminum frames are made with aluminum expanded on air exit side.
